

## **Do You Know Where Your Pets Are?**

*Reprinted from the Cypress Isles News*

*They're in our yard!*

We know you love your pets. So do we. Okay, so we don't love your pets as much as we love our own. We especially don't love your pets when they are allowed to roam free, using our properties as their personal toilet area, and upsetting our pets, which are either leashed, or being kept under control in our screen enclosures. This applies to dogs and cats. It's also against the law...not part of the local or master HOA documents, but an Orange County law. Orange County enforces animal leash and waste laws subject to fines up to \$500 for non-compliance. And don't forget to clean up your pet's waste. We only want to clean up after our own pets, so please be responsible for yours. Report violators to Orange County Animal Control 407-352-4390.
