

Cypress Isles Board Approved Policy

Paperless Meetings

Approved at Board of Directors Meeting Minutes, September 16, 2008

Ron Wiley made a motion for the board meetings to be paperless. Harold Engold seconded the motion and the motion was carried. This means that the community manager will continue to email all the necessary meeting reports to the directors, but will no longer supply paper copies at the meetings. Each board director is responsible for making his/her own copies to bring to the meetings. The Secretary of the HOA will be responsible for supplying extra copies of the agenda, minutes of the previous meeting, financial summary, and manager's report for attending homeowners, either by making copies himself, or delegating to other directors in his absence
